WILL REMODEL HARPER SCHOOL AS JUNIOR HIGH

Alterations to be Completed by Opening of Term in Fall

Harper school, 65th and Wood sts., is to be remodelled at once to fit it for a junior high school, the board of education decided at the meeting held Wednesday afternoon, June 25.

Portions of the basement are to be partitioned off for shop and other rooms. There will be manual training, electrical and printing departments installed. Science laboratories are also to be equipped. Domestic science and commercial courses are to have adequate room.

Contradicting the opinion of many that the junior high school system is for the encouragement of trades rather than for scholastic training, Joseph F. Donnelly, assistant superintendent under W. J. Bogan, who is in charge of junior and high school systems of the city, stated Tuesday, July 2, that an excellent library is to be fitted up in Harper school. It will be a special aim of the junior high school teachers to instruct pupils how to use library facilities. There will be no "trade" rooms in the building and rooms for the regular cultural and classical subjects are not to be minimized.

Showers and lockers are to be placed in the schools to increase gymnasium equipment. Harper has been definitely selected as one of five city schools to be used for junior high school work and will open September 1 as a junior high school.

BANDITS LOCK GROCER IN HIS REFRIGERATOR

A lone colored bandit held up Richard Politzer, proprietor of a grocery and market at 6734 Racine ave., when he opened the store early Monday morning, and rifled the cash register of $420, receipts of the week end business.

Politzer had just opened the store and had gone out in front to get rolls left by a baker when the bandit followed him back into the store. He asked for cigarets and, although Politzer told him he did not sell them, he offered the negro one out of his own package. Declining the smoke, the bandit drew a revolver out of his pocket and commanded Politzer to "stick them up!"

At the point of the gun, forcing the grocer to open the cash register, he took the money. Politzer was then locked in the ice box and the thief made his escape.

Nearly a half hour passed before Politzer was released from his refrigerator prison by a driver for the Schulze Baking company, who stopped in the store to deliver bread. Politzer reported the robbery to the Englewood police and in his description of his assailant stated that he was well dressed and about 35 years old.

Although other communities have been holding vacation Bible schools for a number of years, Drexel is the first church in the immediate vicinity to make the attempt.

The list of those who will have charge of the work has not yet been completed but the following have been given definite assignments: Mrs. Grace Seacrist, Mrs. Arthur Klein, Mrs. Henry Klasey, Mrs. Elrod Smith, Mrs. Walter Bierer, the Misses Charlotte Schultz, Nellie Snitzer, Lorraine and Dorothy Baldwin, and Mrs. Corinne Simpson Irwin.

AMPUTATE MOTORMAN'S LEG CRUSHED BY CAR

Physicians at Rosclaud Community hospital have found it necessary to have the left leg of August Sahr, 6620 Campbell st., amputated in order to save his life.

His limb was crushed June 15 when he was caught between two street cars operating on the 119th and Morgan sts. line. He is a motorman and had left his car and gone to the rear of the conveyance to perform a duty there when the motorman, on a car behind his, received a reverse signal, but started his car forward, causing the collision in which Sahr was hurt.

Efforts were made to save the crushed member, but the doctors decided a short time ago that it would be impossible. Sahr is married and has four children.

LEGION POST CLOSES MEMBERSHIP DRIVE WITH BIG MEETING

BANK PRESIDENT PRESENTS COLORS TO STANLEY SULLIVAN POST

At the close of a successful membership campaign in which nearly 100 were enrolled, Stanley Sullivan Post No. 716 of the American Legion held a meeting Thursday evening at the hall, 6322 Western ave. At that time the post colors were presented by William C. Brietzke, president of the Marquette Park State bank. The flag was accepted by the post commander, A. P. Boyle, 5950 Artesian ave. Other guests of honor included B. M. O'Connell, cashier of the same bank, Leonard C. Reid, and Carl Marzano, who recently gave the post its national colors.

With thirty-five new members reporting at this meeting, and eight more enrolled during the evening, the attendance amounted to about 200 ex-service men and their guests.

Emmett J. Grady, as chairman of the gathering, complimented the post members on their co-operation in getting applicants, caring for disabled veterans, and for their part in the funeral of Sergt. Leslie Powell.

Entertainment consisted of a comedy staged by Charles Bates and Charles Fisher; songs and stories by Frank Maurice, William Tracey, and J. Dunkin, and an act by William Carney and Joseph Sweeney. John R. Reilly, William Fleming, and the O'Connell System co-operated in making the affair a success by furnishing chairs, meeting place, and transportation.

During the summer only the regular meetings will be held, the next social affair, a dance, being set for September 26 at the Palace of Pleasure, Chicago Lawn.

George Hogan, it was announced, will continue indefinitely in his work of helping ex-soldiers make application for the national bonus. Each Tuesday and Thursday evening he has office hours from 7 to 9:30 o'clock at the Fleming real estate office, 6322 Western ave.

THREATEN TO CHOKE KIDNAPED WOMAN "LIKE FRANKS BOY"

YOUTHFUL GRANDMOTHER JUMPS FROM BANDIT CAR AND ESCAPES

Suffering from painful bruises and a deep gash on her head, Mrs. Maude Goenour, 37 years old, 6101 Laflin st., is still in an extremely nervous condition as a result of being kidnapped by three youthful bandits who forced her into a Ford sedan early Saturday morning.

Mrs. Goenour was waiting for a street car at Yates ave. and 83rd st. shortly after midnight Saturday morning when the bandit car approached. She had been visiting at the home of Mrs. Fred Leonard, 8316 Yates ave.

"One of the men got out of the car as it stopped near me and demanded my rings," Mrs. Goenour related. "When I told him that I had left them at home, he summoned a second man and, grasping me by the arms, they dragged me into their car."

"We're going to choke you just like they choked the Franks boy," her assailants told her as they drove off. Bruises on Mrs. Goenour's neck indicate the extent to which the threat was executed. Dazed by the choking Mrs. Goenour fails to remember how far she was driven but as the bandit car sped past another machine she had the presence of mind to knock on the window and scream for assistance. She was then struck on the head by a revolver but she continued her struggles.

"I don't know how I did it but somehow I managed to jump from the car. My kidnapers were about to stop to get me again when they noticed the party in the car that I had attracted by my screams was following.

"I was picked up by the party in the car that followed and was driven to the Grand Crossing police station, where I reported the experience. After receiving medical attention I was able to return to my home," Mrs. Goenour failed to obtain the names of the party that befriended her. Other than to say that the men were all well dressed and about 30 years old she could give no descriptions of them to the police.

In spite of her comparative youth, Mrs. Goenour, who is an attractive blonde with bobbed hair, is the grandmother of three children.

Celebrating his seventieth Fourth of July, James A. Jones, who is a carpenter and contractor, was 70 years old Monday and has lived in West Englewood twenty odd years. Although not rivaling the record of Jones, Benjamin Killham, 6228 Lincoln st., another of the players, is considerably older than the average team member.

Younger in years, but older in point of residence, are some of the other men on the team, several of whom were born in the community where they now live. Captains W. O. ("Bud") Johnson and Thomas Kent will choose their teams from the following men: Emmett Foster, William Stoneham, W. R. Gillette, F. Gillette, F. Klama, Edward Bruzeke, Fred Tams, Edward Rea, Noah Walford, Roy Ross, H. Dahl, Adam Dahl, Charles Thomsen, Otto Vonderheit, Fred ("Sugar") Peters, the Rev. C. C. Cox, George Evans, George Lunt, John Fetter, John ("Bud") Bly, Charles Schoenhauer, Jones, and Killham.

In striking contrast to the days when lanterns furnished their only illumination to guide them to neighborhood gatherings, automobiles will carry the Old Settlers to their picnic. Machines, decorated with flags, will start from the corner of 63rd st. and Ashland ave. at 10 o'clock. Horns, provided by the entertainment committee, will furnish noise for the procession.

Tables and chairs, in addition to those furnished at the Forest Preserve, will be taken to the grounds in order to accommodate everyone for the basket dinner. Tickets for ice cream, pop, peanuts, etc., may be secured from Mrs. Henry Lautenslager, 6518 Hermitage ave., or members of her committee who will be stationed at the West Englewood corner where the trip starts. Persons wishing to be given transportation to the Forest Preserve are to meet at the Ogden Park Masonic temple, 6319 Ashland ave., and, in case of rain, the entire affair will be held in this hall.

Prizes for the afternoon's contests are coming in rapidly from West Englewood business men and friends of the organization. Moving pictures of the various events will be taken by Ascher Brothers.

Committee members in charge of the affair include the following: George Bly, president of the association, Thomas Gifford, Alex Eunson, Edmund Schweder, Arthur Utesch, Thomas Kent, Mark Cadwallader, W. FORM RADIO CLUB AT OGDEN FIELD HOUSE

A course in general radio instruction is one of the features offered by the Ogden Park Radio club, recently organized at that community center. An "aerial" has been installed at Ogden Park Field house, and new sets will be tested each meeting night. Radio fans will in this way get new ideas and also learn how to adjust and operate the different kinds of sets.

A department for answering any questions about radio and an entertainment committee with Alfred Tweed, well known radio entertainer, as chairman, have been provided.

As a branch of the Chicago Radio association, the Ogden Park club will carry on the work that has been outlined in the many local clubs that have united with the larger association.

A general meeting was held in the Field house of the park, Wednesday evening, July 2. Regular weekly meetings will be held at the park on Thursday evenings. New members will be taken in at any of the regular meetings. Privileges of bringing in parts of radio sets for explanations and suggestions will be granted to all club members.

OGDEN PARK LEAGUE TO PICNIC AT PALOS

Trucks will leave the Ogden Park Methodist church, 68th st. and Loomis blvd., at 9 o'clock Friday morning when members of the Epworth League will start to Palos Park for an all day picnic. A basket dinner at noon, followed by games and contests, will furnish entertainment for the guests who choose to spend their holiday at the park.

Edward Morley, 1134 W. Marquette rd., president of the league, is general chairman of the arrangements committee for the outing. Other members of the group are Alfred Claudy, 1207 W. 71st st., George Smallman, 6438 Bishop st., and Theodore Massey, 1573 W. 71st pl.

BANDITS ESCAPE WITH PAYROLL OF NEAR $2,000

Daylight Holdup Fails to Alarm Those in Nearby Offices

Without attracting the attention of two men in adjoining offices, two bandits held up Albert Nonweiler, cashier of the South Side Interior Finish company, 5837 Laflin st., in the offices of the plant Tuesday afternoon, forced him to open the safe containing the payroll, and escaped with nearly $2,000.

While a third man remained at the wheel of a Maxwell car, the two entered the office. Both carried automatic revolvers and, entering the office of Nonweiler, commanded him to keep quiet.

"Open the safe and give us the payroll," said one of the pair. He stood with his revolver pointed at Nonweiler's head while the safe was being opened and his partner stood guard at the door. Nonweiler handed over the payroll of $1,509.64 and then the bandit made him give up the contents of the cash drawer. The total amount gained was $1,982.

The thief that collected the money then left the office and joined his companion in the car. With a final warning to Nonweiler to give them time to get away before he gave the alarm, the second bandit walked out slowly.

When the car sped away Nonweiler shouted to August Newquist, president of the concern and Frank Sashinghauer, an estimator, who were in an adjoining office and who were unaware of the holdup.

A report was made to the Englewood police and squads were sent out to scour the district. No trace of the bandit car was found, however.

Nonweiler, in describing the men, stated that both were about 6 feet tall, 30 years of age, unshaven and wore caps pulled down over their eyes. They apparently knew the system of keeping the money at the plant and the day the men are paid and they seemed to know the location of the different offices.

PLACE PRIZES FOR CONTEST ON DISPLAY

Prizes in the West Englewood Business District association's automobile contest, which has been under way during the past two months, were placed on display Saturday morning in the window of the Patrick McManamon Furniture company, 1655 W. 63rd st. Not only the $1,445 Jewett brougham, but fifty other prizes are included, all to be awarded at a Labor Day picnic, present plans indicate.

After two weeks in the present location, the gifts will be moved to the window of the Semco Furniture company at 6229 Ashland ave. They will remain there two more weeks, and will be placed for the same period at the Bernhard Furniture company, 1521 W. 63rd st., and the Strauss Furniture company, 6357 Ashland ave. Then they will be returned to the business house from which they were purchased, to remain on display until the end of the contest.

Besides the automobile, the window shows a $225 five-tube radio set, a $125 Brunswick phonograph, a $105 kitchen cabinet, a chair, a man's suit, a woman's dress, a floor lamp, woman's hat, ten piece aluminum set, woman's shoes, signet ring, beads, man's hat, smoker's set, electric iron, certificate for $25 merchandise, similar certificate worth $16, and five for $5 each, dolls, catcher's glove, ball and bat, silk hose, men's shirts, and men's shoes.

The committee members in charge of the contest, and from whom the merchants secure their coupon books, include Charles A. Deneen, H. Campbell, Carl Ballin, H. S. Miller, Joseph Frank, R. Strauss, and G. F. Stromberger. Coupons are given with each purchase of $1.

OUTING TO MICHIGAN CITY FOR LIONS

A boat trip to Michigan City was decided upon by vote as the most suitable way to spend a day's outing by the members of the West Englewood Lions club at their meeting Thursday. Dr. J. W. Seaborg, chairman of the committee in charge of the outing, conferred with officials of the Graham and Morton lake steamers and reported favorably on their terms for the party. The trip will be made on some Wednesday in August. According to the plans, the party will leave in the morning and will not return until late in the evening.

W. Merle Fisher furnished something novel in the way of silent boosters—leather key holders.

Reports on the work of the international club, made by William K. Peak, president of the local den, who was the club's delegate to the national convention at Omaha, Neb., will be the feature of this week's meeting.

ARREST DRIVER AS GIRL IS INJURED

Believed to be suffering from a fractured skull, Josephine Smith, 1328 W. 73rd pl., was rushed to St. Bernard's hospital Tuesday morning after she was struck by an automobile driven by Ross Smith, 7802 Marshfield ave., after she had alighted from a 74th st. car at Normal ave.

Miss Smith stepped from the front end of the street car and passed in front of it on her way to Hamilton Park. Smith, passing the street car on the wrong side of the street, struck her with his machine. He was taken in custody by the Englewood police and is being held to await the outcome of the girl's injuries.

MILL WORK

Perpetual Care of Cemetery Lots

WHAT IT SHOULD MEAN

What the Lot Owner Is Entitled to Receive

The average purchaser of a cemetery lot seems to have no definite idea of what the words Perpetual Care should mean, and advantage is constantly being taken of this ignorance by unscrupulous people to deceive the buyer into thinking that he is getting something very valuable in connection with the purchase of his lot, whereas he may be getting very little, or perhaps nothing at all. The words Perpetual Care, in themselves, mean little or nothing.

What Perpetual Care Should Mean

In the older and better class cemeteries, perpetual care means the assurance that the lot purchased, as well as other lots adjoining it, shall have full care perpetually, including the watering and frequent cutting of the grass and all the other items which go to make up the complete and proper general care of the lot. These include, among other things, the raking and cleaning of the lot as needed; the repair and maintaining of the sod by re-seeding, sodding and fertilizing as needed; the pruning of the shrubs and trees; the cutting of the grass with the lawn mower at proper intervals; the hand trimming of such parts of the lot as cannot be properly cut by the mower; the digging and removal of noxious weeds so far as it is reasonably feasible; the filling up and re-sodding of graves which become sunken.

The money for carrying out this work is provided by the income received from amounts either paid by the buyers direct, or set aside as a percentage on the purchase price of the lot, and placed in trust under proper restrictions so that the principal can never be lost through the dishonesty of officials of the cemetery corporation, or by reason of bankruptcy or other business reverses.

The whole transaction is covered by a definite and specific trust agreement, executed in duplicate, and signed by the lot buyer and by the cemetery corporation. An essential part of this agreement is that such trust funds shall be kept entirely separate and apart from the other funds of the cemetery, so that at no future time can they ever be legally attachd for debts of the corporation. They are preferably placed in the hands of a trust company. The law of Illinois requires that a sworn statement of such funds shall be made by every cemetery corporation at least once in two years, and filed with the Clerk of the County Court. Unfortunately the law provides no penalty for failure to make this report and consequently it is sometimes ignored.

These reports are public documents subject to the inspection of citizens who are interested. Where a prospective lot buyer finds that a cemetery has not complied with the law in this respect, it will be wise for him to be cautious in his dealings with that corporation.

Requirements for a Proper System of Perpetual Care

This subject has been investigated by experienced cemetery men all over the country for many years past. It is a generally accepted fact among experts that the very smallest amount which is sufficient for complete perpetual care is forty cents a square foot. The average amount set aside by the better cemeteries is about fifty cents per square foot and runs up to seventy-five cents per square foot or even higher.

Trust funds must be invested only in absolutely safe securities and four per cent per annum is generally considered as the highest average income which can be safely counted on. This means that the forty cent per square foot rate above mentioned will produce an average annual income of one and six-tenths cents per square foot. With strict economy the work can be done for that sum, but it can not be done for less. **At Mount Greenwood, forty-five cents per square foot is required.**

Ways in Which the Public Is Deceived About Perpetual Care

Everyone will realize that at some time in the future the lots in every cemetery will be all sold and when that time comes the income of the corporation will cease and it will be unable to care for the lots unless these trust funds have been set aside and safeguarded. Where adequate funds are not being set aside, any agreement for perpetual care, whether verbal, printed, or written, is of no value.

Where the amounts set aside per square foot are too small, the contract has but little value.

In some cases the funds set aside are not separated from the funds of the corporation. This constitutes a direct danger either from dishonesty of future officials, or the attaching of the funds to pay future debts of the corporation.

In some cases it is stated that a large area of land has been set aside to be subsequently sold and the funds applied to the perpetual care trust. These lots will naturally not be sold by the corporation until after it has sold its own lots, and unless such areas have been actually deeded and set aside in trust they can easily be so manipulated as to defraud the lot owner and will always be subject to sale to satisfy the debts of the corporation.

A Special Danger

It is most easy for the lot buyer to be deceived where the percentage method of setting aside funds is used. Ten per cent may seem a large amount, but at the average price of $1.50 per square foot charged for lots in most of such cemeteries this only produces a trust fund of fifteen cents per square foot. The lot would have to sell for $4.00 per square foot to produce a fund of forty cents and it is doubtful if any cemetery in Chicago averages such prices. Even twenty per cent would only produce thirty cents per square foot from the $1.50 lots, and only yield forty cents on the high priced $2.00 lots.

Let the lot buyer not forget that he pays the perpetual care deposit. Where the percentage system is used the prices are simply made enough higher to cover it.

What the Cemetery Lot Buyer Is Entitled to

1. Definite evidence that a minimum sum of not less than forty cents per square foot is really being placed in trust for each lot sold.

2. A definite legal contract setting forth all the facts and officially signed by the corporation.

3. Evidence that the funds are all in the hands of a reliable custodian, preferably a trust company of recognized standing, and that all investments are made in securities approved by the trust company.

4. Evidence that the corporation is filing its reports with the Clerk of the County Court, as required by law.

The Mount Greenwood Cemetery Association files such reports annually, instead of every two years, which is all the law requires.

The Mount Greenwood Cemetery Association

Invites the most careful inquiry and investigation regarding the handling of perpetual care funds passing through its hands. All such funds deposited by its lot owners are in the hands of the Chicago Title & Trust Company. Investments are made and all income is collected and handled by them.

The **Mount Greenwood** invested funds are now **over $225,000.00**, and **$25,000.00 additional** is being held for the completion of installment payments by lot owners.

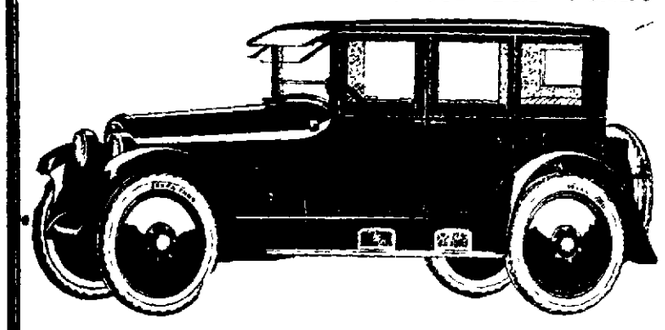
NASH

Leads the World in Motor Car Value



THE NASH SIX FOUR-DOOR COUPE

PICTURED above is a model that illustrates splendidly Nash ingenuity in the creation of original body types. Through expert use of every interior inch the car has been made delightfully spacious and yet it is so compact that handling is greatly facilitated. The body by Seaman is finished either in lustrous maroon, or Nash Sky Blue, with black running gear and fenders. Five disc wheels with the fifth wheel mounted at the rear are standard equipment along with a Nash self-mounting carrier. There's a rear-view mirror; kick plates to protect the paint; an instrument board with all instruments grouped deftly under glass; rubber filled running boards; and lengthened, low-sweeping fender. At the rear there's a sturdy trunk that is an inbuilt feature of the body. Strong nickel-plated bars add a decorative note to the trunk and the rear of the body and permit strapping on additional luggage without injury to the coach finish. The upholstery is of mohair and taupe in color. There's an attractive vanity case and a smoking set of flush type. Overhead is a dome light that floods the car with soft radiance and there are two reading lights—one in each rear corner—that throw light directly over your shoulder.

A New Policy

THE JORDAN organization has taken a step forward in the service to both property owners and buyers. During the next few weeks various points of this service will be called to your attention.

The most important point from both the standpoint of the buyer and seller is—

EXCLUSIVE LISTINGS

WHEN you are shown a piece of property by one of our salesmen you can rest assured that if you want that property it can be delivered at the price and terms quoted. This means that the buyer is getting the advantage of rock-bottom price without quibbling.

Now for the seller. It means that this entire organization is interested in disposing of the property of the man who places sufficient confidence in us to give us an exclusive listing. Instead of dividing our efforts between exclusives and general listings they will be concentrated only on exclusive listings. This secures the property owner that his property will receive better attention than ever before.

Despite a city ordinance forbidding the sale of firecrackers within the corporation limits of Chicago, children are being provided with these dangerous toys. Already one little Southtown girl is their victim. Three-year-old Florence Erongle, while attempting to light a piece of punk at her home, 5200 Honore st., was seriously burned about the chest and arms last Wednesday evening. Her clothes caught fire, resulting in serious injuries. Just across the border line from the city, in all directions, stalls have been set up where fireworks are sold at exorbitant prices. Of course, these dealers are not disobeying the letter of the city law, but an Illinois statute prohibits sale of fireworks within 300 feet of any inhabited building. Many of these booths are being conducted inside buildings, or even near gasoline filling stations, in direct defiance of the state law.

BOOTLEG FIREWORKS

Without considering the vital question of possible harm as a result of their sales, these dealers are just as guilty in their disregard of authority as are bootleggers. And, like the latter class, they are charging prices much higher than their merchandise is worth.

Parents who purchase fireworks are equally guilty of disobeying the law, and are setting a poor example for their children. Even though no physical casualties result in a family, the possession of illegal property has been countenanced and encouraged. Can the enjoyment of a few minutes' boisterous pleasure overbalance the effects of such acts?

John Plant, chief of Chicago's fire prevention bureau, states his position in the words, "We want the children to have a good Fourth, but we want to have the children here for the next Fourth." A city ordinance prohibits shooting off fireworks within the city limits without a permit. Responsible persons, representing organizations or community groups, are gladly granted this privilege, and the bureau co-operates by detailing firemen to guard duty during the celebration.

Along the southern boundary of Southtown certain streets are lined with booths selling fireworks. To make Friday a real Independence day, Southtown residents can do no less than refuse to patronize these merchants, thus proving their patriotism in a worthwhile manner, and at the same time protecting their families.

Congestion of traffic rivaling the loop rush hour periods results from the closing of one of the driveways on Garfield blvd. during the elevation of the Baltimore and Ohio and the Panhandle tracks at Leavitt st. when hundreds of automobiles come out over the South Park system in the evening. Machines, forming in double lines as the safety gates are lowered, must fall back into single file in order to pass and this maneuvering of the machines on track inclines makes it impossible for more than ten cars to pass before the gates swing down again, stopping the traffic altogether.

DO NOT AVOID CONGESTION

Double rows of cars form westward to Western ave. and on the east the cars are lined up for several blocks. It often takes nearly half an hour to work through the jam and continue the journey. Many drivers turn their cars about after waiting a while and take another route.

Yet the South Park policemen do nothing to abate this congestion. They stand watching the cars instead of directing motorists over another route.

Hundreds of cars with their motors running idly represent an economic waste.

Tomorrow we shall celebrate the "Glorious Fourth." Nobody could criticize us for setting aside this historic day as a national holiday. The birthday of this country ought to be celebrated, and will be celebrated by patriotic Americans to the end of time. It is the method of celebration, which is common among us, that may well be criticized. We do not need to prove that much of the so-called Fourth of July celebrating is utterly unworthy of America's natal day. Some of us are old-fashioned enough to urge that we observe our popular holiday as did the American people of former days. Let us again have our patriotic gatherings with their patriotic music and singing. Let us again have the reading of the Declaration of Independence and the eloquent patriotic address. This part of the day's celebration ought never to be eliminated. These are the things which will help to keep us forever vigilant—lest we fail to guard well the sacred liberties which are our heritage.

A SANE FOURTH

By the Rev. Albert Bauman, Pastor Ogden Park Methodist Church

Col. Frank D. Ely has recently written a series of articles on "Selling America." In his opening sentences he declares that the better we sell America the better we keep it. "Keep its great truths before the people. Tell the truths of America wherever you can, whenever you can, in every way you can, to every one you can." What an opportunity the glorious Fourth gives us to do that very thing in a most impressive way.

Much of the lawlessness and anarchy which is current among us is due to the fact that our people do not know America—its history, its ideals, its spirit! Every effort should be made to make America known so we may hasten the progress of Americanization of our cosmopolitan population. A few years ago New York City did a splendid thing when on the Fourth of July there was put on a patriotic pageant. The city of Cleveland has the distinction of having the credit for an innovation which is doing great things for the maintenance of the dignity of naturalization. The cheap and undignified manner in which naturalization papers are commonly granted gives to thousands of foreigners a degraded view of our citizenship. Cleveland, on the Fourth of July, has her "confirmation class" of instructed candidates for citizenship. The oath of citizenship is administered to these as solemnly as if it had been a sacrament. The patriotic address of the presiding judge inspires respect for law and love of our American ideals, and the new citizens instinctively resolve to be loyal citizens.

There are many sane methods to observe the Fourth of July—any method may be called sane and truly patriotic which helps to make us better appreciate our government and to do our part that government of the people, by the people, and for the people may never more perish from the earth.

RASCHKE WINS PITCHING DUEL FOR LUTHERANS

Hope Comes Back After Three Weeks' Layoff to Trim St. Paul

Three weeks layoff because of rainfall on the Sabbaths failed to weaken the Hope Lutherans and Sunday, at Ogden Park, Norman Raschke took the honors in a pitching duel that brought them a 2 to 0 decision over St. Paul of Austin in a Lutheran League game. Both teams got three hits but the honors went to Raschke as he struck out nineteen of the men who faced him while Meyer, of the west siders was able to make only thirteen fan.

Raschke showed superior generalship in the pinches and many times where he had three balls on a batter, he would whip three in a row over and chalk up another strikeout. His pitching was airtight when men were on bases. Meyer deserves credit for the kind of ball he hurled and previous to the game with Hope he had a clean slate. His one error in the third when Hope scored their two runs, was largely responsible for St. Paul's upset.

Knichbaum opened the third session for Hope and popped up a short fly. Meyer muffed the ball and when it rolled back towards second all the infielders, except the first baseman ran after it. In the resulting muddle Knichbaum was safe on first. He immediately stole second and when Raschke sacrificed he advanced to third. Boese grounded out but Garless waited for a walk. He also stole to second. Then Martin poled out a long drive to left field and it looked like the curtain for Hope's budding rally.

Landreo was unable to locate the fly because of the bright sun and Knichbaum and Garless came home.

The 1000 Church League fans that came out to witness the game were shown some high calibre playing by both teams, and the same kind of brilliant work will be seen again next Sunday when the teams meet in a return engagement at Columbus Park.

ENGLEWOOD CHRITIANS DROP GAME TO GRACE

Held scoreless after the first inning, Englewood Christians were mowed down, 13 to 1, by the Grace Lutherans in a church league game at Hamilton park Saturday. Frequent breaks in the Christians' defense gave the Lutherans their unlucky number of runs, although they made but ten hits.

Eight wallops were garnered off C. Olson's delivery by the Christians, but they were kept well scattered. The seventh inning was a bad one for Warren, as six of the Lutherans dashed across the plate with tallies in this frame. L. Olson took the limelight in this session with a homer.

Armour Mission is next on the Englewood schedule. The game will be played Saturday at Hamilton park.

ACE ARROWS SWAMP MOOSE CLUB JUNIORS UNDER 16-8 SCORE

HOMERS WITH MEN ON BASES AND TRIPLE PLAY ARE FEATURES OF GAME

Scoring in every inning except the first the Ace Arrows swamped the Moose Club juniors 16 to 8 at Washington Park Sunday. Joe Dwyer, on the mound for the victors, pitched a good game, allowing thirteen and allowing only six hits. Frequent bobbles by his mates gave the Moose Club opportunities to score more runs than they earned.

Hitchcroder of the Aces sprained his ankle sliding in to second in the third inning and was forced to retire but in the three frames he played he had a perfect record with two hits, one of which was a homer with mates on base. Beatty also drove out a homer with the corner congested.

Out of the Rough

By Fred S. Clisbee

ARTICLE 20

To the golfer scoring around a hundred or more, who is willing to put some effort towards improving his game, I would suggest first a complete check up on his shots. Find out which ones are most faulty and determine, if possible, where the fault lies, so that your efforts can be concentrated on its correction. The good player is a good player, principally because he is well acquainted with his game and his clubs. He knows what they will deliver for him on an average and plays them accordingly. Not calling on his reserve until the circumstances warrant it, he has something in reserve, and generally recovers his badly played shot. On the other hand the player of a hundred or more is continually pressing every shot, sometimes endeavoring to recover two or more badly played shots.

Being told to take it easy, when in this sort of fix, seems like poor logic to the man who is behind a couple of strokes in distance. In your check up I believe you will find a great many strokes used in getting out of the rough especially when the grass is long. Most of these shots were due to poor judgment in the selection of the club to be used. The first thing to consider is the club but will get your ball out on the fairway. Don't take the one that you think will give you the most distance. Distance is secondary under the conditions and more so, if you have been in the habit of taking a number of strokes to get out. Make the only time you should make an exception to this rule, or stretch a point is when your ball lies within reasonable reach of the green. In playing the ball out of the rough make the very lack of the club more upright than you would put on the fairway so that in your stroke to the ball the club head cuts very little of the grass in back of the ball. Hit right down, and when the club head reaches the low point of this down hit, give it the right shoulder, causing the head to cut a pathway on a level of the ball. It is a pretty good idea to keep the head down observing this pathway being cut by the club head.

Then the most exasperating way of getting stuck is to play well up to within striking distance of the green with a par or bogey within reach, then caught back of the hill and roll it a few feet, adding the next one off to the right, no half topping, the next clean across the green. After about four more you have a two foot put and it tops on the lip of the cup ending up with a nine or ten.

The fault in cases such as these is due to the player's anxiety to get within an inch of the hole or in other words the shot was planned too fine. His mind was all cluttered up with a hundred things he should not do, and the fear of what might happen consequently in this mental short circuit when the club started for the ball as mental shots do.

Plan your shot as you stand over the ball—gauge your distance and the amount of force necessary to get you there. Put your club down addressing the ball and take a comfortable stance. Sight your direction returning the eye to the ball. Clear the mind of everything except the hit of the ball.

After you have actually felt the club head meet the ball you have plenty of time to see its flight.

ENGLEWOOD COPS ROUT BURNSIDE BY 8-5 COUNT

Timely Hitting of O'Brien and Donohue Features Victory

Some timely hitting gave the Englewood coppers their fifth win in the Police league Wednesday of last week at Hamilton Park. Burnside were their opponents and Englewood got an 8 to 5 decision over the Maryland ave. bluecoats.

In the third inning with Burnside holding the heavy end of a 2 to 1 score Donahue poled out a homer with D. P. O'Brien on the sacks. Burnside netted a run in the next stanza and again sewed up the count. Once more Englewood's ability to register hits when needed was shown when D. P. O'Brien drove out a double and shoved in three mates who occupied the runways.

Donahue lasted only long enough to make the circuit clout as in the next session he was hit in the head with a bat swung by Campbell. He was put out of the game and three stitches were necessary to close a laceration of his temple.

Englewood is in second place in the south section of the Police league with a record of five victories and two defeats. They will clash with Kensington, the league leaders, today, Wednesday, at Ogden Park and the game promises to be a thriller as the league supremacy depends upon the result. Kensington has a record of six wins and only one loss and if Englewood is able to trim the far southsiders they will be a tie for top honors.

New Buick

For a long time rumors of the many rumors of late in the automobile world has been given more credence than that the Buick Motor Company was putting a new motor of a different type and that it would be offered the public in its new models this summer. How far ahead the majority of such stories usually is, is plainly seen in Buick's announcement this week of its Standard Six model, which, together with the larger Buick's cars to be built this year, will be powered by the well-known Buick valve-in-head engine.

A view of these new cars likewise dispels another story that circumstances were going to cause Buick to make some material changes in the body lines and the general appearance of its models. All of which has been proven untrue.

Getting back to the engine, anyone who is at all familiar with the policies upon which Buick has been making its cars for more than twenty years knows that no basic principle which has proved by Buick and not found wanting has been discarded. Facts are refinements and improvements seldom by comparison is true when they are found to be advantageous, but only in such case.

Such improvements have been exemplified in the Buick valve-in-head engine in the past two years in the detachable head and the providing of automatic lubrication for the rocker arms. These and other refinements make this engine a far better one than the engine of four and five years ago, but the valve-in-head principle has not been changed. In fact, for power and performance and dependability, it is more firmly entrenched in the public mind than ever.

And what is true of the valve-in-head engine principle is likewise true of Buick's multiple disc clutch, its rear axle with its distinctive third member, its spring construction and the newly designed steering gear.

"Keep the good" has always been one of Buick's mottoes, and that is one of the reasons Buick cars always have been good cars.

July 1st
Is an Interest Period

and consequently makes an ideal time to open a savings account.

The value of a savings account need not be emphasized. Those who have one know the sense of security it gives. Those who have none have discovered the dire need for one on more than one occasion.

You will find it much more convenient to have your account in your neighborhood bank, where it is always accessible. Come in and open an account today.

Transfers can be made with no inconvenience to you.

Excellent First Mortgages and First Mortgage Gold Bonds

They are all FIRST mortgages, made by the bank itself, and with its own money. The valuations of the property, made on a conservative basis, are at least twice the amount of the loans—which gives an exceptionally large "margin of safety."

We recommend these First Mortgages and First Mortgage Gold Bonds to those who have $100, $500, $1,000 or more to invest. They all pay 6 per cent interest, and can also be purchased on the Partial Payment plan

Buy your mortgage from a Bank. Your bank is a financial institution and is in close contact with all angles of the financial world. Consequently, isn't a bank the logical place to seek advice and counsel in buying investment securities?
